

# Assignment 5 Pong Game

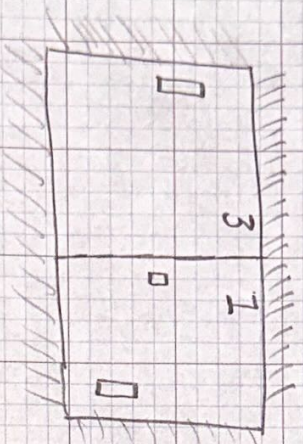

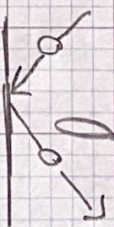

0 1 Scores: The scores only go up +1 point when the player gets the ball to cross the side wall and the score is added to the respective player's score.

The Walls: The top and Bottom wall then work as a bouncing wall for the ball to bounce off of.

The Side Walls: These walls work as the goal area for the game. Whenever the ball passes through any of the wall, say right side which is the AI's, the point goes to the player.
